Clean Up Portland Harbor

Letter

Dr. Ms. McCarthy, The proposed cleanup of the Portland Harbor is a big win for industry and a bad deal for the public. EPA's cleanup proposal tackles just 8% of a site area that is 100% toxic. A more aggressive plan is needed to prevent even more harm to human health and the environment. On behalf of all people who rely on the river for food, recreation, employment and culture, I urge the EPA to implement a plan that: Moves quickly and sustainably reduces contaminants causing harm to Willamette and Columbia River resources. Includes ongoing monitoring and cleanup upriver and downriver from the site. Contributes to healthy fish that are safe to eat for all people. Holds polluters accountable for creating a safer Portland Harbor. These elements get us closer to the plan our communities deserve. And I deserve a clean, safe Portland Harbor. *Submitted during the comment period between June 9, 2016 to August 8, 2016 regarding the EPA's Portland Harbor Feasibility Study and Proposed Plan.

I love Portland for being so abundant in plant and animal life and green spaces. Don't we humans owe it to this abundant land to care for its essential waterways? What a dream it would be to know there were healthy fish in the water and safe places for people to play and connect with the vitality of our phenomenal region, the way the ancients of this place prayed for and intended for us.

Please let us honor the foresight of the ones who came before us by doing our part to make this place welcoming for all life today and to come.

With love,
